Welcome to the 2026 Clark County Government Wellness Credit Program

Clark County's Wellness Program will reward employees with a $40 per month health premium credit once an employee reaches 100 points. One additional dependent (spouse or adult child aged 18-26 on the health plan) can earn a reward of $40 per month health premium credit once they reach 100 points for a total credit of $80 per month per household. Points must be achieved during the highlighted time listed above.

The Wellness Program allows those who wish to participate and who are enrolled in one of our medical plans to receive a discount on premiums for the plan year beginning January 1, 2026. Those participating will need to receive 100 points on or before November 15, 2025.

New Employees will receive a registration email once they are in the system. Please allow 7-10 days to receive this.
Once registered, you can invite your eligible spouse or adult dependent (only 1 additional dependent allowed) so they can get points for the credit as well.
Existing Wellness Participants can access their account here:
https://clarkcogovtwellness.wellright.com/act/auth/login

- Biometric Screenings will be conducted on-site at various locations as conducted last year. Screenings on-site will take about 7 minutes, and sign-up links will be emailed before screenings.
- In addition to on-site screening opportunities, you and an adult dependent may schedule screenings at BluMine Health locations. Screenings at the clinic are by appointment only and will take approximately 25 minutes.
- There are many other options available to achieve your points on the Wellright platform.
- All activities must be uploaded on the WellRight platform or submitted to wellness@bluminehealth.com to receive points.
